- **Caroline Usikpedo** (Nigeria)
- **Jeanette Sequeira** (GFC, India/Australia)

Side Event #

Friday 27 May | 11:00 | Green Room, UNEP HQ Gigiri

The event will present preliminary results of the Community Conservation Resilience Initiative (CCRI) which has facilitated a bottom-up participatory assessment by over 30 communities from 10 different countries of the resilience of their conservation initiatives. The event will highlight the role of women in such initiatives, and the different connections with

successful SDGs realization, including Goal 5 on Gender Equality, and Goals 14 and 15 on biodiversity conservation. The event will also compare market-based approaches with non-market based approaches to address the threats to community conservation initiatives, and the differentiated impacts on women and indigenous peoples.
